WHAT'S WRONG WITH 1890? President Eisenhower, in his April 10 press

conference, in reply to a question, said: ". . . Now, I happen to believe that in this day and time we cannot use the governmental processes that were applicable in 1890.

"We have got to adapt the great principles of the Constitution to the inescapable industrial and economic conditions of our time, and make certain that our country is secure, and our people participate in the progress of our economy.

Does this mean that we are to change our Constitution every decade or so to meet the fashions of the moment? What was so wrong in 1890? We were at peace. The population was much smaller than it is today, about 62,000,000 people, of whom 40,000,000 lived in rural communities. The immigration to the United States was continuing, 455,000 in 1890, but significantly the largest numbers came from Germany 92,000, Great Britain 69,000, and Ireland 53,000.

# Grand Slam Safe at N.-T.

By OSWALD JACOBY Written for NEA Service

A Salt Lake City correspondent writes: "Here is a hand that is still causing a lot of discussion in our duplicate club. Every table reached seven spades but as you can see, seven no-trump is just as easy a contract and I wonder why we all fell down on those extra 10 points that would have meant a top score for any-

one who went after it. "I sat North and was sure we had a slam the moment my partner responded with two spades. I temporized with three spades and when he asked for aces by bidding four no-trump I jumped right to the grand slam. I did not want to take the slight chance that he might pass if I had shown my three aces by means of a five-spade bid. I feel that he could have bid seven notrump over my seven spades. How right am I?"

The answer to this man is that well have tried the grand slam ensmith of slaying William A.

June Brides to Be ...

marked North with all three missing aces on his jump to seven. In that case South could count 12 tricks as follows: six in spades, two in hearts, three in diamonds and one in clubs. He could also be certain that North would hold the king of clubs. After all he (South) held the three other kings.

Finally, South might have gone one step further and reasoned that, seven no-trump might be even safer than seven spades. The opening lead might be ruffed at a spade contract whereas it could not be at no-trump.

#### **Korea Veterans** Take Advantage Of Training Plans

Disabled Korea veterans are making their mark in virtually every walk of life, according to the New York State Division of Veterans' Affairs and Howard Shurter, director of the Ulster County Veterans Service Agency. An estimated 46,000 disabled Korea veterans have received vocational rehabilitation training which has prepared them for careers ranging from physicist to automobile mechanic and from

school teacher to bricklayer. The largest single category, 44 per cent of all the disabled veteran-trainees, can be found in top-ranking professional, semiprofessional and managerial oc-cupations. The veterans' official said another 30 per cent of the disabled veterans trained for skilled jobs in trade and industry, twelve per cent took their training in the clerical and sales fields, and six per cent trained as farmers. Other disabled veterans have trained for a variety

Director Shurter urged veterans with questions on education and training to visit the State Division of Veterans Affairs and the Ulster County Vet-Service Agency at 32 Main street, here or any of the branch offices in Ellen-ville, Highland, Kerhonkson and Saugerties.

#### Army Recruiting Plan Includes Guard, Reserve

In a move to aid area youth, by establishing a centralized military obligation information center, the U.S. Army has authorized its recruiting personnel to procure enlistments for the National Guard as well as the Regular Army and the Army Reserve.

The new three way plan announced by Sgt. Harry M. Johnston is designed to curtail confusion about where to go and whom to see. The centralized recruiting also enables young men of this area to better understand and plan their obligation so that individual military commitments will be tailored to personal future education or employment desires. Specific-information on either National Guard or Army Reserve may still be obtained by visiting the nearest Reserve center or Ar-

Wilkes-Barre, Pa., April 17 (AP)

—The Glen Alden Coal Corp.,
world's largest anthracite producer, increased its profits for ducer, increased its profits for 1956 more than a thousand per cent over the previous year, jumping from \$154,249 to \$1,613,-446—its best year since 1950. In a letter to stockholders, which accompanied the annual report, President Francis O'Case said yesterday that the company's outlook for 1957 is better than for any year since he took office in 1933 and "warrants the payment of dividends as long as these favorable conditions prevail." The Glen Alden earnings for last year amounted to 91 ents a share, as compared with 9 cents a share in 1955. Sales jumped from \$58,708,793, to \$67,-578,654 and net working capital from \$11,803,559 to \$15,024,-

#### **Exempt From Taxes**

Albany, N. Y., April 17 (AP) The Long Island quarters of Afghanistan's delegation to the United Nations now are exempt from local real estate taxes. But the Russians, in a nearby community, still have to pay. Gov. Harriman signed a bill today exempting UN delegations' property from taxation if they were within 15 miles from UN headquarters in New York city. The old limit, set by legislation in 1954, was 12 miles. The bill was sponsored by Joseph F. Carlino, the Assembly's Republican majority leader, who lives at Long Beach in Nassau county.

# Why "Good-Time Charlie" Suffers **Uneasy Bladder**

# Here Today! The FORD SKYLINER - world's only Hide-Away hardtop

Once in a long, long while a car comes along that people remember and talk about for years after its introduction.

The first model "A" Ford was such a car ... The first Ford V-8 was such a car ...

The first Ford Thunderbird was such a car.

Today Ford Division is proud to announce still another car that many say is destined to become the most famous Ford of all: The Skylinerworld's only hide-away hardtop.

If you plan to buy a new Ford, or already own one, the fact that Ford created this car is important to you. For all the exhaustive research, planning and testing that went into the Skyliner is evidence of the engineering skill you get in every Ford model.

The Ford SKYLINER, the only all-steel hide-away hardtop, is a car for history.

This is an old dream of Detroit, a dream of two generations of motorists. And today Ford has made that dream come true

-in steel. But the story behind this dream is a story of men who refused to accept "no" for an answer. In the Ford tradition they kept striving toward the goal

long after others had given up the chase. To understand this Ford spirit you must go back to 1908. That was the year when many Detroiters smiled smugly as Henry Ford announced, "We will build a motor car for the great multitude . . . so low in price that no man making a good salary will be unable to own one."

And they did. Today, nearly a half century later, Ford continues to cause the "experts" to change their tune. When you see this all-steel hardtop that retracts into a convertible, you'll be seeing a car that many said would never be mass-produced.

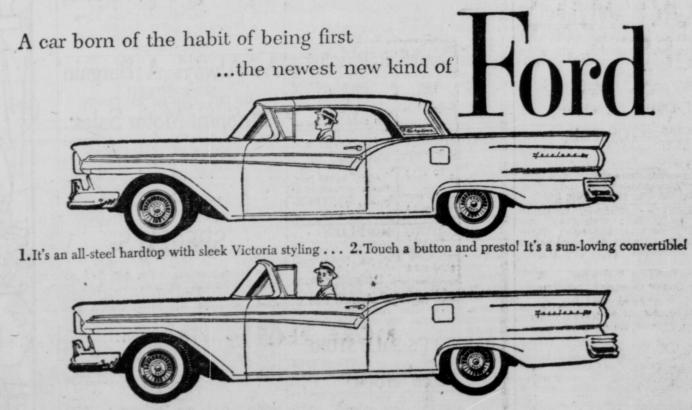

The styling group was first to work on it. They experimented. They improvised. They worked unceasingly. Finally they completed a power-

operated three-eighths scale model that actually would convert. It was December 1956-after eight years of research, planning, experimenting and testing-when Ford unveiled this masterpiece . . . unveiled it amid all the pomp and splendor of the New York

Automobile Show. And now this history-making car, this prototype of a whole future generation of cars, is ready for your own personal inspection in the showrooms of

many Ford Dealers. Plan to see it soon. And ask your Dealer to show you the exciting advances in all models of the new

Ford line for '57. In creating the Skyliner, the world's only allsteel hide-away hardtop, Ford continues its tradition of being first with the important innovations. Come in and see this newest example of Ford's leadership. Let us give you the exciting details on this revolutionary car-and the other great '57 Ford models. Discover for yourself the things you get in Ford that no other car can offer. Discover for yourself why the '57 Ford leads all other cars in sales.
